Communication: Do you need to **# Improve** communication with your community **# Effectively deliver** your message to an audience **# Support** event-communication **# Raise** awareness to the stakeholders

This is what I can do for you:

- With twenty years of working experience in an international business environment, I can **produce text** with ease in both Dutch as the English language.
- Because of my work as an event manager, I know how to **attract maximum attention** when broadcasting specific information via different media.
- With my creativity, I can **support your message** with an effective combination of layout, visual designs and the right wording.
- Produce a **communication-plan** to improve interaction with your target group.
- I can get a **clear message across** during presentations, events and other Face-to-Face gatherings.
- With my open-mind and service-oriented work ethics, I can **create enthusiasm and involvement** when working with a team or customers.
- **Create a website**, leaflets, posters, e-mailings, newsletters and registration-forms.
